- Internet
- GroupWise

World Wide Web and Local Area Network

- Internet

Don't access any web sites that provides a warning banner unless you have prior approval by NRISO for official business.

CNRF is limiting access to the internet sites that are clearly not used for government business. We are not censoring access, but regulating the "spending" of precious capacity.

Need access to a specific site that is blocked, contact N6 EWCS Sheppard at 8-8678.

World Wide Web and Local Area Network

- GroupWise (E-mail)

E-mail is not private. E-mail accounts maintained on government computers are subject to monitoring and examination.

A password is mandatory for GroupWise. Password of your choice minimum 6 digits.

Never leave your E-mail open and unattended.

Do not share your password.

Change your password every six months or when compromised.

Forgot your password, contact NRISO customer support at 8-7070.

To E-mail outside of NAVRESNET type **"internet:"** first on the T0 line.

Sending an attachment, 4meg is the maximum allowed.
